OUR ACADEMY

The ACADEMY OF DENTISTRY, TORONTO, has been functioning continuously since 1889. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

The OBJECTS of the Academy are:

1. Advancement of the art and science of dentistry.
2. To promote the highest ideals of dental practice.
3. Cultivation of harmony and good fellowship among its Fellows, and among the members of the dental profession generally.

Some of the specific services provided are as follows:—

1. The Annual WINTER CLINIC.
2. After hours EMERGENCY TREATMENT service for the public.
3. The Annual INFORMATION BOOK, a directory of dental organizations.
4. The LADIES' AUXILIARY, which provides support for worthy dental projects, and various fellowship activities.
5. PUBLIC RELATIONS, a secretary to answer the public's queries and complaints.
6. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
7. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
8. DENTAL MEETINGS with excellent programs and clinicians.
9. Assistance in formation of new STUDY GROUPS.
10. HONOURARY MEMBERSHIP to recognize outstanding dentists.
11. ARCHIVES for historical dental information.
12. Fellowship activities such as the Annual GOLF TOURNAMENT and CURLING BONSPIEL.
13. MEDIATION services for the public.
14. COMMUNICATION with dental auxiliary organizations.
15. LIAISON with local government and other community groups.

DR. GORDON PERLMUTTER

Just a few short weeks after birth in Middle Europe, Gordon Perlmutter came to Toronto with his parents and decided to stay.

After graduation from Harbord Collegiate Institute, he entered the Faculty of Dentistry, University of Toronto, and immediately became an active member of Alpha Omega Fraternity. Since graduation in 1950, he has expanded his dental activities, and has served as President of Toronto North Dental Society, the Crown and Bridge Study Club and the Toronto Alumni Chapter of Alpha Omega. He is currently Chairman of the

Ontario Dental Association Committee on Mediations; a member of the Canadian Dental Association Council on Education, and Chairman of the Board of Trustees of the International Council of Alpha Omega.

A long time active participant of the Ontario Dental Association Convention Committee, he has been appointed Co-chairman for 1979 and will be General Chairman for 1980.

Dr. Perlmutter is a part-time clinical instructor at the Faculty of Dentistry, University of Toronto, and has served as a member of an interview team for the Admission Committee of this Faculty. He is also a long time member of the Dental Staff at Baycrest Centre and Mount Sinai Hospital.

Dr. Perlmutter is married to Estelle Shore, formerly of Beamsville, Ontario. They have a son Philip, and two daughters, Sharon and Nancy, all members of Beth Tzedec Congregation.

Dr. Perlmutter spends his spare time with the Early Birds at the Fitness Institute.

PRESIDENT'S MESSAGE

The year's program may be well underway by the time this is read by our members, but it is customary, indeed proper, for the President to express his feelings and thoughts about what has happened, what is happening and what is about to happen.

One of our greatest concerns at this time is the changing image of our profession and our practitioners within the community. This fact was very recently brought home most effectively by a practitioner of but ten years' practice in a discussion of the changes which are obvious to him in that short time span. In addition, many representatives of all ages, in the other professions, are sounding similar complaints about our collective loss of stature.

Unfortunately, the many advances in dental knowledge, the improved materials and techniques, the more efficient systems for the delivery of higher quality dental care to a wider segment of the population are often negated by the growth of consumerism and the altered professional values espoused and exhibited by too many of our colleagues. One might pause to consider what influence, if any, is the result of the sudden proliferation of unidentified groups and individuals who are sponsoring lectures, courses and programs of every description, with total disregard for similar programs under sponsorship of our numerous recognized dental organizations. These meetings often affect the latter to their detriment and ours, and are very often not deserving of our support.

The stated objectives of the Academy of Dentistry are:

—*Advancement of the art and science of dentistry;*

—*To promote the highest ideals of dental practice;*

Cultivation of harmony and good fellowship amongst its fellows and among members of the profession generally.

A careful examination of these objectives, and the services (listed elsewhere) provided by the Academy as the means to these ends, must result in the obvious conclusion that we already have adequate guidelines to help us in our efforts to recover our former enviable status.

The Academy is but one of several recognized long-standing organizations serving our profession. These are all readily identified and affiliated with the Ontario Dental Association and the Canadian Dental Association, or their counterparts in the Americas and elsewhere, and they are all deserving of our support. Locally, the Academy has been functioning as co-ordinator for the four component members of the Ontario Dental Society, namely, North, West, East, and Central, and among the most valuable services have been the handling of mediations for these four district societies, and emergency service for greater Toronto.

The programs which are sponsored and managed by the Academy encompass education, athletics, social, and community welfare, all with a background of fellowship. There is something for every member and you need only choose something to suit your taste and you may be assured that participation at any level, and to whatever degree you may wish, will bring more than ample reward.

Our profession is the object of criticism and abuse from many directions. We must defend ourselves by a strong display of unity or risk total loss of our independence and the right to continue as individuals according to free choice. It is imperative that you continue to support your Academy and all the recognized dental organizations with which we are affiliated.

GORDON PERLMUTTER, D.D.S.

EMERGENCY SERVICE REPORT

The new Emergency format adopted two years ago has proven itself to be a reliable success; problems and public complaints are truly at a minimum. I am pleased to have been a part of one of the Academy's most productive services, both to the public and to the profession. As retiring chairman, I wish to thank everyone who helped make this program the well-known and respected service it is. My very special thanks to the dentists, who not only staff the Emergency Service, but represent the profession to the person in the street.

MEDIATIONS COMMITTEE REPORT

The changing attitude of the public toward professional services has resulted in an increased number of complaints lodged against dentists with the Academy of Dentistry.

The patient of today has become a consumer and as such has taken the stand that, if they are not fully satisfied, they will not hesitate to make a report to the dental association, their member of parliament, consumers' affairs department or any other group that will act on their behalf.

Because of busy schedules, professionals tend to become somewhat indifferent towards patients. This results in poor dentist-patient communications, the most common complaint which the Mediations' Committee receives and must reconcile. It is most important that all patients clearly understand the proposed treatment and the fees being charged for such services.

There are many complex services that dentists now perform for patients and, even though there are complaints concerning treatment, the Mediations' Committee finds that most dentists make every effort to provide the best services possible.

The members of the four Mediations' Committees for Metropolitan Toronto have spent many hours resolving the disputes through explanation and compromise in order to avoid the complaint going to higher authorities (R.C.D.S. And Health Disciplines Board). For this we offer them our gratitude.

To Mrs. Pat Williams of the Academy of Dentistry, who receives the many phone calls each day in connection with registration of complaints and who has capably assisted the Mediations' Committee in all the necessary correspondence, we extend our sincere thanks.

It has been my privilege to serve as Chairman of the Mediations' Committee this past year in an effort to arbitrate the many problems arising as a result of patient complaints. Should any problem present itself on which advice would be welcome, please do not hesitate to contact me or any member of the Mediations' Committee.

GILBERT CHAPNICK, D.D.S.,
Chairman,
Mediations Committee

UNITED WAY REPORT

In 1977 we collected more money than in the previous year but missed the objective by \$1,000.00.

This year the United Way has decided to have the Dental Division as one of the spearheads for a pilot campaign.

This will enable us to canvass all the Dentists and, hopefully, get a large number of donations prior to the actual start of the personalized drive. This will also reduce the number of calls the canvassers have to make.

The United Way has been falling below inflation rate as far as increases in donations over the past few years.

This year we are striving for a 25% to 35% increase just to catch up with the inflationary spiral.

We hope that the Dental Division comes through with its best showing so we can give the media some positive news regarding public relations for the Dental Profession.

RONALD TRAUB, D.D.S.,
